Oxford Blue

EST 1968

It is with pleasure that we present to you our latest collection from Oxford Blue. Having now reached our 50th year in business, we are proud to offer you our range of garments which are made in our own factories in the Heart of England.

Established in 1968, Oxford Blue is one of Europe's leading leisure brands, keeping people warm and dry outdoors worldwide.

A family run business, Oxford Blue designs and manufactures a variety of outer wear, shirts, headwear and accessories, for both men and women, using only the very highest quality fabrics and lining materials, brought together by age old craftsmanship, care and attention.

We are proud to say that we a have a great network of long established fabric mills and trim suppliers in the UK, which helps us to keep our product offering at the leading edge of country styling and fashion.

We are not only a brand but a quality manufacturer, supplying many high street blue chip companies all over the world with our private label production.

Our minimums are low compared to other factories due to our self sufficiency and ability to adapt to customers requirements and market trends.

Please feel free to contact us for any enquiries that you may have, we look forward to doing business with you!
